Citizenship: Filipino

Work Experience

UI/UX Designer

Genx Sports and Media Production Corp. - Parañaque
February 2023 to Present

Throughout my career, I have had the opportunity to work on diverse projects that have honed my skills in crafting intuitive and visually appealing interfaces. My experience conducting user research, creating wireframes, prototyping, and conducting usability tests has equipped me to design user-centric solutions that meet both the end user's needs and the company's objectives. I have a working knowledge of being a UI/UX designer, I was assigned to different project designs such as website landing pages, web application interfaces, digital products, Brand banners, Match banners, and Promotion banners. I collaborated closely with cross-functional teams to understand project requirements and translate them into engaging design concepts. I pride myself on adapting quickly to new challenges and learning emerging design trends and technologies. My proficiency in industry-standard design tools such as Adobe Creative Suite and Figma has allowed me to bring my ideas to life efficiently.

Front-End Web Developer

Out of the box Creatives - Makati
October 2022 to December 2022

I worked as a Front-End Web Developer as part of my Internship program. I was assigned to Website and software applications designing, developing, and maintaining Conferring with the teams to resolve conflicts prioritize needs, develop content criteria and choose solutions.
